Professional Summary

Ambitious undergraduate pursuing a degree in Computer Science and Engineering (Data Science) with a diploma in Computer Science. Experienced in web development through hands-on projects and an internship as a web and Java developer. Proficient in Java, Python, Flutter, and database management, with foundational knowledge in machine learning, data analysis (NumPy, Pandas), data preprocessing, and model evaluation. Eager to leverage my technical skills and passion for coding in a dynamic internship role.

Work Experience

Web and Java Developer Intern

Squad Infotech Pvt Ltd | 6 Weeks

- I I Developed a fully functional, responsive e-commerce website for a mobile and laptop store using HTML, CSS, and JavaScript for the front end.
- Designed a dynamic and flexible user interface compatible with multiple devices, including mobile, tablet, and desktop, enhancing user experience.
- Utilized Java, JDBC, and Java Servlets for the backend to handle customer data, product listings, and transactions with real-time updates and secure data handling.

Computer Society of India (CSI) KJSP, Committee Member

- **Workshop Development:** Created comprehensive workshop curricula focused on real-world applications of web development technologies, enhancing participants' technical competencies.
 - **Community Engagement:** Initiated collaborative projects that encouraged teamwork and creativity, fostering a strong sense of community among members.
 - **Sponsorship & Partnerships:** Engaged with local businesses and tech organizations to secure sponsorships and partnerships, enhancing resource availability for events.
-

Projects

E-commerce Website (Watch)

- Created a responsive e-commerce website for watch sales, using JavaScript for the front end and SQL for database management.
- Focused on delivering a clean and easy-to-navigate design with smooth user interactions for browsing, searching, and purchasing products.

ML Project Using Python

Developed a Machine Learning project using Python to convert hand signs into text. Trained a model with image data to recognize gestures and enable seamless communication.

Skills

Programming Languages: Java, Python

Web Development: Html, CSS, JavaScript, Tailwind CSS, Bootstrap

Database: SQL, MongoDB

Tools: Github

Microsoft Tools: Word, Excel, PowerPoint, Teams

Education

SMT Indira Gandhi College Of
Bachelor of Engineering in Computer Science & Engineering (Data Science)

August 2024 -June 2027

KJ Somaiya Polytechnic
2024 Diploma of Engineering in Computer Science – 86.10%

October 2021 -June

Hackathons performed

IoT Website on Food Waste Management (VES Technothon Hackathon - Runner-Up): Developed a website using IoT technology to monitor and manage food waste, contributing to sustainable resource management.

Digital ID Card Detection (VES Technothon Hackathon - Winner): Built a hardware-based system for detecting and verifying digital ID cards, enhancing security and streamlining verification processes.
